

SERIES 4

FEATURING:

HOURS

MINUTES

SECONDS

DAY

DATE

MONTH

MOON PHASE

“I had wanted to create an instantaneous triple-calendar wristwatch for some time, but was initially dissuaded by the often difficult-to-read dials.”

To accommodate this complication, the Series 4 is a slightly larger 41mm cased, manually wound wristwatch displaying hours, minutes, seconds with date, day, month and phase-of-moon complications.

ROGER W SMITH

MOVEMENT

- Roger W Smith's latest single wheel version of the Daniels co-axial escapement
- Free sprung Quadrajust balance
- 18,000 vibrations per hour
- Raised barrel bridge and balance cock, engraved with a choice of English floral designs
- English finished with frosted and gilded plates
- Gold chatons and flame coloured screws to a purple/blue hue
- Numbered and signed, R.W. Smith - Isle of Man

DIAL & HANDS

- A choice of materials can be used to create a unique engraved or engine turned dial and a complementary set of the unique Roger W Smith's sculpted hands

CASE

- A choice of platinum or 18 carat yellow, red and white golds
- 41mm diameter
- Sapphire crystals to front and rear

STRAP & BUCKLE

- A leather strap with matching buckle to suit the case material
- Engraved R. W. Smith buckle

PRESENTATION BOX

- An English worked, leather presentation box
